

WHY WEBSITES USE COOKIES

Let's say John visits a shoe website

Hey, can I take a look at
your products?

First, you need to
sign in

SWIPE >>>

John successfully logged in

Yes, here are my name
and password

Great proceed

SWIPE >>>

John wants to checkout

These shoes are great i
want to order them

First, you need to
sign in

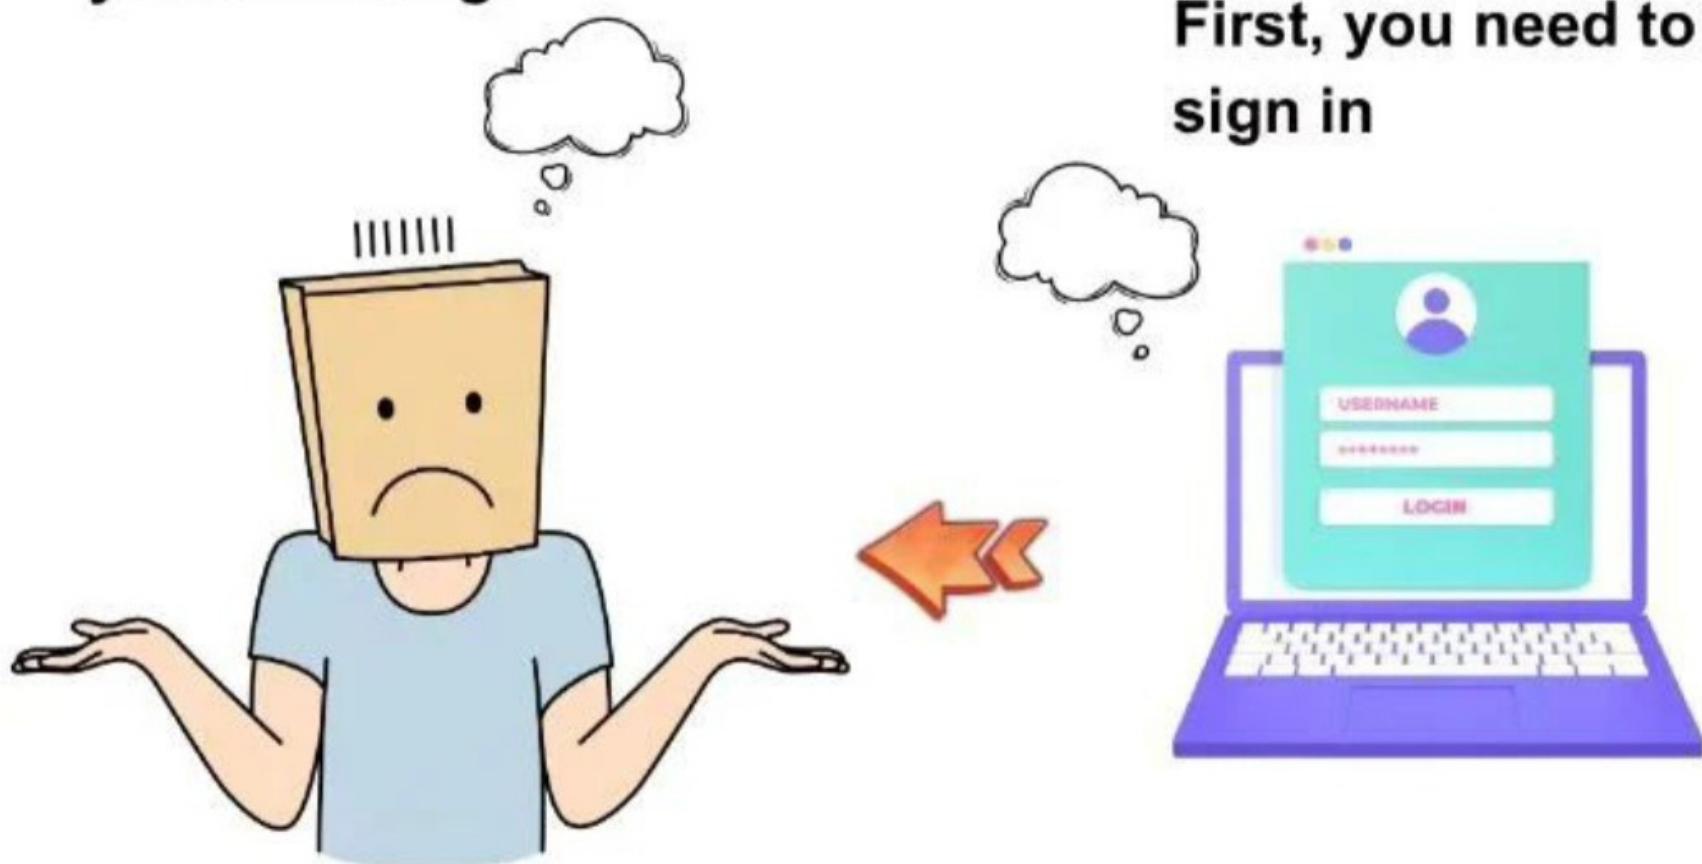

SWIPE >>>

What!!!

Umm... I already did what
you're asking!

First, you need to
sign in

SWIPE >>>

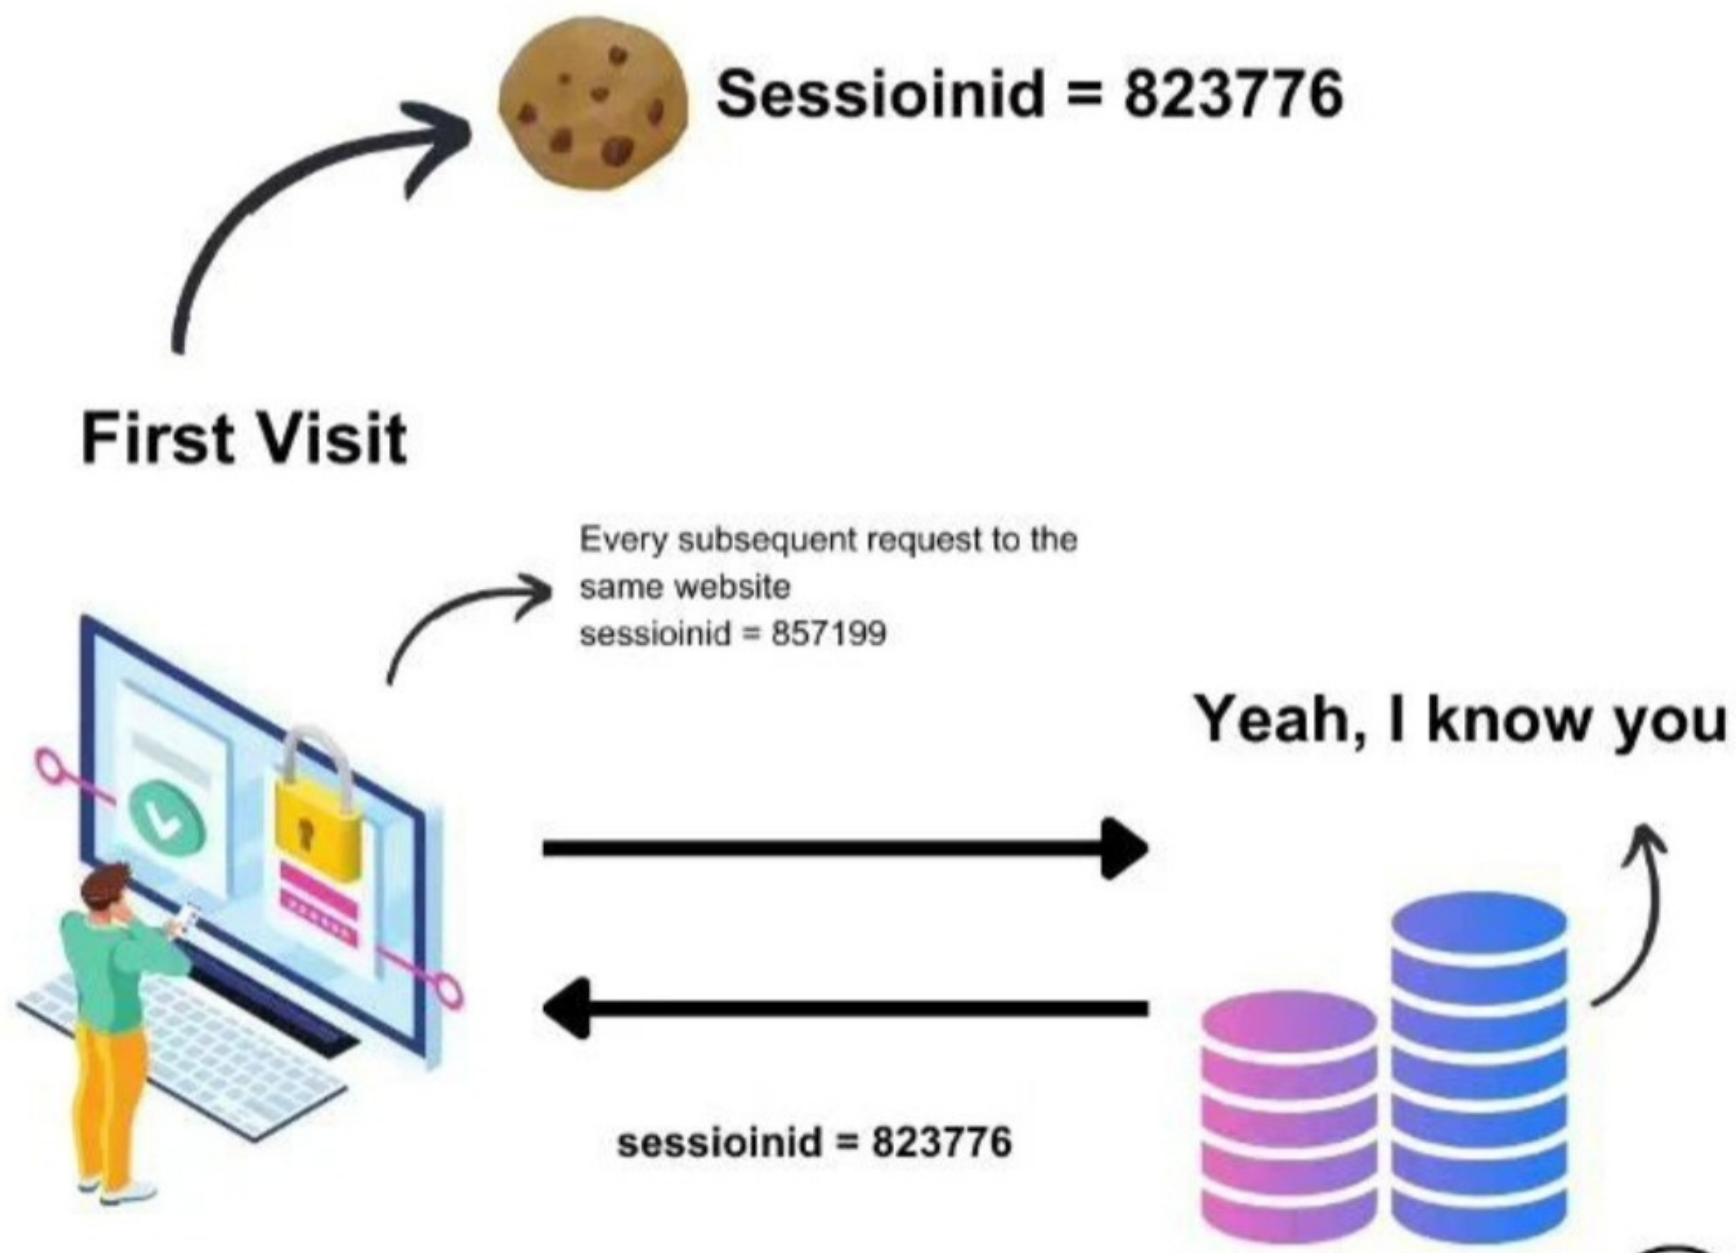

This is where Cookie comes in

Cookies are small files that websites store on your computer they help the website identify you

SWIPE >>>

A cookie is a small piece of information that a website stores on your computer. When you go back to the website, your browser sends the information back to the site.
